HIBISCUS PIN REPORT TO BOARD

Mr. Red Dragoo reported that he had worked with a firm in the north who would make a lacquered hibiscus either in a pin or ear rings. These could be sold by the chapters to members etc. and the profit used to finance the multilith machine. There would have to be 500 of these purchased. The chapter representatives were asked to talk it over with the chapter members and Mr. Dragoo is to work up a diagram and figures on how much the program would cost and what we could sell them for. There will be more information in a later issue with all the details.
